

Convergence Festival is Salt Spring's free family centred Community Art and Music Festival that takes place where the inter-island tidal river reaches the harbour in the heart of Ganges Village. At the convergence of wildly diverse and rich ecological systems and the centre of our islands social and commercial hub, we celebrate Salt Spring's thriving musical culture and unique community spirit.

Convergence invites community to gather and reconnect with one another as we say farewell to summer and the busy tourist season. Now in its 4th year, this beloved event showcases local and nationally renowned creative talent, builds community relationships and belonging, and inspires more engagement in arts and culture impact throughout the coming year.

Join us in helping bring Convergence Festival to life this year! We're hoping this year will see increased musical and artistic offerings and are asking for community support to make it the best possible experience for everybody. Your contribution will go directly to compensating artists and building more technical and environmental infrastructure to ensure accessibility, inclusion, creative and inspirational presentation.
